# HOW TO BID

## What to Bid On:

As you read through the catalog for the first time, record the numbers of all the lots you are interested in on a worksheet. If you are interested in specific types of coins, be sure to check the catalog index.

## How Much to Bid:

The price you bid is determined by you. You must remember the value that you place on the coins. Check the values listed in the catalog and decide what you are willing to pay. You should bid generously on the lots you strongly wish to obtain. If there are some lots you would like to have 'if the price is right', then you may want to place nominal bids on those lots. Because a number of collectors choose to bid on many lots, the number of successful bids will be relatively small. This is controlled by a very active market. **You can safely extend your bidding** (and take advantage of a 'bargain') by placing a dollar total limit on your bids. Should your total be reached before all your bids are executed, we will then terminate your bidding.

Remember that your bids are limits. It is possible, and quite often does occur, that you will succeed in purchasing a lot for less than your bid since we start the floor bidding at about 5-10% above the second highest mail bid. Example: You bid \$500.00 on the lot and the next highest mail bid is \$400.00, we start the lot bid at \$425.00. If there are no bids from the floor, you will then be awarded the lot at \$425.00 - or if the floor bidding stops at perhaps \$450.00 or \$475.00 then you will receive the lot at a small advance above the top floor bid. If bidding continues above the \$500.00, then that floor bidder will be awarded the lot.

## How to Fill Out the Bid Sheet:

On the Bid Sheet you will observe that there are two different column headings. Lots and Bids. When you decide on the lots you want to bid on, enter the lot numbers under the proper column and the maximum amounts you are willing to pay for those lots in the proper column.

LOT	BID	LOT	BID
482	550.00		
517	900.00		
614	130.00		

If you have circled one of the increase percentages, you will be allowing us to increase your maximum bid in order to obtain the lot which is going for more than you had anticipated. We will buy the lots for you as low as possible as outlined in the TERMS OF THE SALE.

## YOU ARE THERE

If you are unable to attend a Kagin's auction, you can bid on material by mail or take advantage of Kagin's "unique" YOU ARE THERE SERVICE. A.M. Art or Don Kagin are always available for personal consultation in numismatic matters. Please call TOLL FREE TODAY 800-247-5335.

# GRADING STANDARDS

We use Dr. Sheldon's numerical grading system for the grading of U.S. Coins. This is the system that has been used with great success by sophisticated numismatists for many years and now adopted by the A.N.A. We use the following abbreviations and descriptions:

<b>POOR-1</b>	Barely recognizable as to type.
<b>FAIR-2</b>	Showing minor detail.
<b>ABOUT GOOD-3 (AG-3)</b>	Rims worn down into lettering but interior detail visible.
<b>GOOD-4,6</b>	All interior outlines visible.
<b>VERY GOOD-8,10 (VG-8,10)</b>	About 25% of the interior detail will be visible, date barely readable.
<b>FINE-12,15</b>	30% to 50% of the interior detail will show.
<b>VERY FINE-20 through 35 (VF-20,25,30,35)</b>	60% to 85% of the interior detail will show. 35 (Borderline EF).
<b>EXTREMELY FINE-40,45 (EF-40,45)</b>	90% of all interior details will show.
<b>ALMOST UNCIRCULATED 50, 55 (AU-50, 55)</b>	Bare traces of friction at the highest points. 55+(Borderline Unc).
<b>UNC-60 (MS-60)</b>	Strictly Uncirculated with no rub or friction, i.e. NO WEAR.
<b>CHOICE BU-63 (MS-63)</b>	A Choice Uncirculated specimen nicely struck and with nice luster
<b>GEM BU-65 (MS-65)</b>	A Gem coin in all respects. Fully struck. Only a bare minimum of minor abrasions (marks).
<b>SUPERB GEM BU-67 (MS-67)</b>	If you look real hard with strong magnification you might find a faint flaw.
<b>PERFECT GEM-70 (MS-70)</b>	Once in a great while, a perfect coin is sold.
<b>PROOFS &amp; SPECIMENS</b>	Proof and Specimen are methods of manufacture, not grades. All of our Proofs, Specimens, and Proof-Likes are graded in the same manner as our business strikes (examples: Proof-55, Proof-60, CHOICE Proof-63, GEM Proof-65, SUPERB GEM Proof 67).

## CURRENCY

<b>GOOD</b>	Well worn but all devices legible.
<b>VERY GOOD</b>	Fairly well circulated but quite legible.
<b>FINE</b>	Some circulation but with decent color and some crispness.
<b>VERY FINE (VF)</b>	A few folds with much of original crispness.
<b>EXTREMELY FINE (EF) or(XF)</b>	Two or three light folds, light soiling or handling marks.
<b>ALMOST UNCIRCULATED (AU)</b>	A single fold or several tiny corner folds.
<b>CRISP UNCIRCULATED (CU)</b>	No fold or corner creases! Corner may be rounded or note not completely centered but no creases (i.e. broken fibers) can be evident.
<b>CHOICE CU</b>	A brighter or fresher note with full borders although one or two may be slightly off-center.
<b>GEM CU</b>	Brightness and well centered, sharp corners.
<b>SUPERB GEM CU</b>	Perfect centering and bright colors. As nice as the day it was printed.

Artificially processed notes will be so described.

# REGARDING ANA CERTIFICATION

KAGIN'S ARE PROVIDING COMPLETE AMERICAN NUMISMATIC ASSOCIATION CERTIFICATION OF YOUR RARE AND UNUSUAL COINS. We at Kagin's think that this certification service is essential in assuring the authenticity of the coins you purchase. This certification service guarantees you the genuineness of the material handled in a Kagin's Auction. **FOR ALL OF THE COINS FEATURED WITH PHOTOGRAPHIC REPRODUCTIONS ABOVE THEIR RESPECTIVE LOT DESCRIPTIONS WE WILL FURNISH ON REQUEST AN ANACS CERTIFICATE.** We are pleased to provide this service for our consignors at no extra charge.

The American Numismatic Association Certification Service, ANACS, is a branch of the federally chartered, non-profit, educational American Numismatic Association. The professional staff at ANACS examines and when necessary, will conduct non-destructive tests on numismatic material submitted for certification. The results of these tests are then furnished to the person submitting the item along with a statement of ANACS opinion concerning the authenticity of the coin.

All coins that are determined to be genuine, are then issued a certificate of registration. This certificate records an identifying code number, a statement of authenticity and documented photographs.

Kagin's is the **only auction company** that offers this ANACS for all the major coins featured in our auctions. This is a valuable benefit that Kagin's is able to offer you. It protects the collector and the consignor. You will be able to take advantage of this essential service when you consign your coins to a Kagin's auction.

### 1793 CENT ENCASED IN SILVER MEMBERSHIP BADGE-UNIQUE

104. "1797 Rectangular membership badge 57 x 41 mm x 2-3 mm thick, copper, heavily silvered, encasing near top 1793 S-5 Wreath cent. VG. Below cent (5 lines hand engraved, all but 4th in script), H.E. Perkins/Merc (ator?). Phil (adelpheinsis?)/Pennsylvania/ANNO./★1797★. At borders, rococo (sic) scrollwork, obv. & rev. Lower rev., below cent, eagle grasping wreath in beak, holding palm branch in claws (in reference to device of 1795-97 \$5 & \$10 gold); at bottom, No. 3 (membership number in whatever high class society used such badges); Edge, TH. DANFORTH III PHILADELPHIA, Fine or so, though silvering is worn off parts of outer rims. So far as we know, UNIQUE; this extraordinary item showed up at ANA Convention two years back, and was written up in Penny-Wise Vol. X, no. 3, p. 147 (1976). Consignor identified Danforth as "engraver for Benjamin Franklin," but no explanation of this title. Unusual example of Early American hand engraving, the more unusual because of the numismatic tie-in." Lot 226 of our 1977 ANA sale cataloged as above by Walter Breen. The cent is indeed a strong Very Good with many portions closer to Fine under present grading standards. A highly desirable intriguing UNIQUE specimen of Early Americana.

## 1793 LARGE CENTS

These "first year" as well as "type" coins have now become quite popular with new records being set when offered.

105. 1793 S-6, **WREATH**, small date, small Liberty, **Sharp VF-25 obv/EF-40 rev.**, rough spot below Y in LIBERTY, small spot top rev. Well centered, nice strike. Popular first year of issue. Valued by Sheldon at about 40% more than the "commonest" variety. Surely worth over 4,500.

106. 1793 S-9, **WREATH**, Vine & Bars edge, **ABOUT UNC-50 sharpness**, lustrous steel-blue color, very faint edge nick. Lovely for "type" or date. **RARE SO CHOICE**. Easily worth over 15,000.

107. 1793 S-11c, **LETTERED EDGE** (one leaf on edge), **Sharp Very Fine** with reverse closer to **Extremely Fine**, usual slightly porous planchet, tiny rough spot above S O on rev. Much rarer type than the usual vine and bars offered. Well worth over 5,000.

108. 1793 S-14, **LIBERTY CAP** with diagnostic die crack bisecting obverse, **Very Good**, uneven wear resulting in Y on obv. and ES O on rev. not being visible, tiny nick above RT. Somewhat Rarer than the usual S-13 Liberty Cap offered. The "common" Liberty Cap trends \$1,200 VG, surely this rarer variety worth over 1,500.

### THE FINEST KNOWN 1797 S-137 Cent?

123. 1797 S-137, "S" over "S" variety (first S in STATES engraved too low, then corrected), **Choice Borderline UNC-55+**, very faint rubbing, **SUPERB** bluish, purple brown with hint of red. Some die failure evident in center obverse. **SHARP STRUCK WITH DEEP EDGES DENTICLES**. Dr. Sheldon states, "The die is more flaked and the defects mentioned are more prominent; Several irregularities of surface and minor defects are seen (reverse). This die also seems to have been made of poor steel." **CONDITION CENSUS** (50-50-45-35-30-20)!!!! If this specimen was unknown to Sheldon, then it surely is **THE FINEST KNOWN**!!!! If Sheldon, due to the irregularities mentioned, had deducted points bringing it down to AU-50, then this could be either **THE FINEST KNOWN** or its **EQUAL IN HIS CONDITION CENSUS**!
124. 1797 S-138, Usual die state with swelled reverse die, **Sharp VF-35 rear EF-40** with usual porous planchet. 250.
125. 1797 S-142, **Very Good-8** with reverse possibly closer to 6 (rough, edge mark), two thin scratches obv. **EXTREMELY RARE** (*High R-6*). 450.

126. 1798 S-145a, UNLISTED "GRIPPED EDGE", **Choice About UNC-50**, only slight friction, lovely lustrous brown surface. **CONDITION-CENSUS** FOR S-145 is (50-45-40-40-30-20) and is R-3; Sheldon states "No more than a half dozen seen above VF." Surely this **EXCESSIVELY RARE, TOP CONDITION** specimen worth upwards of 10,000.

127. 1798/7 S-152, **Wide Overdate, Nice Extremely Fine-45/40**, chocolate, slight porosity of reverse surface. **RARE** (R-3). **CONDITION CENSUS** (60-50-40-35-35-30)! Easily worth over 1,500.

**AVOID ERRORS — Recheck your Bid Sheet carefully!**

128. 1798 S-155, **REVERSE 1796**, close to **Extremely Fine sharpness**, attractive steel-blue and chocolate, close examination reveals old burnishing (to eliminate some porosity?) obscured by lovely toning. **CONDITION CENSUS (70-60-50-45-35-30)!** Valued at \$500 when acquired in 1973, surely 7 years later this desirable rarity worth well over 1,000.
129. 1798 S-158, Parallel die cracks obv; heavy break over ITED, & 2 die cracks, **Very Fine sharpness** but some abrasions & typical porous planchet. **RARE (High R-4)**. 350.
130. 1798 S-162, **Strong Fine-15**, chocolate. **VERY RARE (High R-5)**. Could this be the Fine-15 coin in **CONDITION CENSUS**? Valued \$300 in 1973; surely its present value should be over 500. **PLATE**
131. 1798 S-165, "Whisker" variety, **VF sharpness** with typical flaky and rough planchet, some tooling to smooth surfaces. **VERY RARE (High R-5)**. Desirable as Condition Census is (35-30-20-15-15-12). 250.
132. 1798 S-169, **Very Fine-25**, chocolate. **VERY RARE (mid-range R-5)**. Just misses Condition Census which includes VF-30. Valued \$250 in 1973; probably now worth closer to 500. **PLATE**

133. 1798 S-170, virtually **AU-50 sharpness** with pleasing brown color and hints of tan, minute handling marks. Rare early die state with obverse arc die crack just beginning to show. **RARE (High R-4)**. **CONDITION-CENSUS (60-45-40-35-35-25)!!!** Possibly the 45 or 40 coin listed (downgraded for minute handling marks). Valued \$1,500 over 7 years ago; present value ?
134. 1798 S-174, **High EF sharpness** but close inspection reveals "smoothed" reverse (to remove some graininess?), pinpoint edge nick, glossy deep chocolate color, nice strike. Condition Census (65-60-50-45-35-35). 350.

135. 1798 S-176 or 176a? Die crack right obv., **UNLISTED "GRIPPED EDGE"**, Sharp **EF** in point of wear but patches of graininess on surface, deep smooth chocolate color. The normal S-176 is **VERY RARE (mid-range or possibly upper-range R-5)**. **THIS EXCESSIVELY RARE?**
136. 1798 S-181, Large Fraction, **Sharp VG**, near Fine, chocolate. **VERY RARE (R-5)**. 150.

### CHOICE 1799 CENT (CONDITION CENSUS?)

138. 1799 S-189, Perfect Date, accompanied by detailed analysis of Walter Breen (INSTITUTE OF NUMISMATIC AUTHENTICATORS), Berkeley, Cal. 18 August 1964 (he is also collaborator of the Sheldon PENNY WHIMSY book). "This certifies that I have examined the accompanying coin, and that I unhesitatingly declare it to be an authentic 1799 cent, Sheldon 189, GENUINE AND UNTAMPERED. This piece is from the earliest die state, showing virtually no traces of the diagnostic rim breaks over F AM (only microscopic die crumbings at denticles), and only the slightest trace of the "mint mark" chip between E of ONE and T of CENT. It is one of the *VERY RARE* examples showing nearly full borders on both sides together with *strong LIBERTY* and *Strong Date*. Over 99% of known 1799 cents have either strong LIBERTY and weak date or vice versa, the ratio being about 6 to 1 (the famous Hines AU specimen has strong LIBERTY and weak date, the "Abbey" and Downing 1799's have weaker LIBERTY and strong dates). The few with strong LIBERTY and strong date are mostly well worn, and *THE PRESENT COIN IS BEYOND DOUBT ONE OF THE BEST SUCH KNOWN TO EXIST!*

The circular mark on obverse, at face and in right field, is not a scratch but a pre-striking mark made by the planchet cutter, a device similar to a cookie cutter which stamps blank planchets out of the long thin copper strips. I have seen this type of mark on many other early cents, including some uncirculated ones. It is not an impairment. In grade, this coin narrowly misses the condition census and some collectors might well believe it to belong in the census. I have seen possibly eight or nine in about the same grade, BUT THIS WAS THE ONLY ONE SHOWING STRONG "LIBERTY" AND DATE. Planchet color and texture are characteristic of the last 1798's, the 1799's and the earlier 1800's. In fact, THIS IS UNUSUALLY GOOD FOR PLANCHETS FROM THIS COLTMAN BROS. & CO. LOT OF PLANCHETS, as it is less dark than usual and with less roughness than usual, the roughness being localized. "It is exceedingly difficult to evaluate this rarity since it is "IN A CLASS BY ITSELF" with its SHARP LIBERTY AND DATE (as is the Hines AU-50 coin but which has a weak date). The Hines coin fetched \$10,500 October, 1959 on an estimated value of \$8,000." This "30" coin brought \$7,250 14 years ago. It last appeared on the market in 1973 valued at \$10,000. Surely this highly desired specimen, 7 years later, worth over 20,000.

139. 1800 S-199, Fine with date, Liberty & legend closer to VF, chocolate. *VERY RARE* (High R-5). CONDITION-CENSUS (60-20-15-15-12-12)! 300.

*The plates for the first session appear on pages 48-50.*

140. 1800 S-206, Die crack left obv. & injured die over LIBERTY, about EF sharpness but possible old cleaning, dark chocolate color. *RARE* (R-4). *CONDITION-CENSUS* (45-40-40-35-30-30)!!

141. 1800 S-208, *Extremely Fine* sharpness but grainy surface and tiny marks on cheek, diagnostic break over TY. *RARE* (R-3). *CONDITION CENSUS* (40-25-20-20-20-15)! Valued \$625 in 1973; present value surely over 1,000.
142. 1800 S-207, *Very Fine*-20, light marks, chocolate, nice appearing. *RARE* (R-4). 300.
143. 1800 S-209, *Fine*-12 or so with die failure at RTY, medium brown. *VERY RARE* (R-5). 150.
144. 1800 S-211, Pair, normal & die break behind head, R-3, 1800 S-212 VG-10, R-4. Lot 3. 175.

145. 1801 NC-1, Ex. Walter Breen as "4th reported example of this supreme rarity. The others are F-12, VG-8, (in ANS) and BS-1, so far this *Very Fair*-3 (now called AG-3) piece is the 3rd Finest Known and 2ND BEST IN COLLECTORS' HANDS. *It is not only the FINEST, but the ONLY AVAILABLE SPECIMEN*, since the two are owned by famous collectors who will not let them go." Also "June 2, 1806" pin scratched on obv. The present edition PENNY WHIMSY lists a VG-10 but not this, therefore this rarity must have been discovered after 1958. Acquired when it was pointed out that the date itself was Fine although the remainder was legible for the most part. The above was stated in 1973. Surely this *GREAT RARITY* now worth over 1,000.
146. 1801 S-213, VG-8, R-3 or 4; 1803 S-245, VG-8, R-4. Lot 2. 150.
147. 1801 S-215, *Fine* sharpness but wire brushed obv. (to remove verdigris?) *EXTREMELY RARE* (Mid or High R-6). 200.
148. 1801 S-220, FRACTION 1/000, Sharp VG-10 obv/Sharp Fine-15 rev. with prominent die failure at top, chocolate. "The rarest collectible reverse with an error in the fraction, and this also is a highly prized variety" - Sheldon. *RARE* (R-4). 250.
149. 1802 S-230, *Very Fine* sharpness but rough surface. Scarce (R-2). 75.
150. 1802 S-237, Widest Date of year, VF-25/Fine-15. Scarce (R-2). 135.

151. 1802 S-233, T over Y (LIBERTY), VF sharpness but heavy encrustation on rev. RARE (R-4). VF valued \$275; this probably worth close to half.

152. 1803 S-247, Famous "Mumps" obverse (double chin), About UNC sharpness with some granulation of surface. VERY RARE (R-5). CONDITION CENSUS (60-50-50-45-35-30)! Valued \$1,000 in 1973; surely this desirable rarity now worth over 2,000.
153. 1803 S-265, Large Date, Large Fraction, pointed 1 in date, Very Fine-20. Far superior to most offered of this rare variety. Scarce early die state with light die crack rev. 400. PLATE

154. 1804 Broken Obv. & Rev. Dies, EF-40 with typical porous planchet and attractive brownish chocolate color. Remarkably free from the usual abrasions which seem to plague most we have seen over the years. Typical strike with the right reverse struck slightly sharper than left reverse. THE SECOND RAREST DATE LARGE CENT! 3,500.
155. 1806 S-270, High VF sharpness but patches of rough spots. Cat. VF \$170; this worth about half.
156. 1807 S-274, VG-8 with "Always seen with die sunken under STA." RARE (High R-4, near R-5). 75.
157. 1807 S-275, Large Fraction, EF sharpness but porous surface and a few tiny pitmarks. VERY RARE (mid-range R-5). Condition Census (60-50-40-35-30-30). 350. PLATE

### ANACS Certification

ANACS Certification will be furnished on request for the coins featured with photographic reproductions above their respective lot descriptions.

1325. **1871 AU-50**, Sharp Strike, some luster. *ONLY 3,230 STRUCK!* Seldom offered. Akers states, "Most known specimens grade in the VF to EF range and I know of only two that reach the AU level. To the best of my knowledge, the 1871 is not known in strictly uncirculated condition." Surely this rarity worth well over 1,500.

1326. **1872-CC AU-50**, Some luster. Akers states, "I have never seen an 1872-CC that graded better than choice EF and I have not heard of one even close to uncirculated. Most known specimens are well worn with Fine and VF being typical." *EXCESSIVELY RARE SO CHOICE!* 5,000.
1327. **1873 Open 3, Choice AU-50**, Akers states, "The 1873 Open 3 is not at all common, and is decidedly rare in AU or uncirculated condition. Most known specimens are only VF or EF and is very underrated." 750.

1328. **1873-S Choice EF-45**, low coinage. Akers states, "The 1873-S is extremely rare in any condition. Almost all known specimens are well worn and I do not know of any that would grade better than EF. Actually there are a very few that even reach that level and Fine or VF coins are the rule." The trends of only \$850 appears to be much too low in keeping with its rarity.

1329. **1878-CC Borderline UNC-55+**, Most of original luster with usual light marks commensurate with grade, only faint friction. Scott states, "Unknown in UNC, excessively rare in EF." To the best of my knowledge, no known specimen grades better than EF and I have seen only two or three that are even graded that high. Most available specimens (there aren't many) grade only Fine or VF." Can this remarkable specimen be "THE FINEST KNOWN"?

### \$10 1907 INDIAN, MATTE "PRESENTATION SPECIMEN"?

1418. 1907 INDIAN PRINCESS design, *SUPERB MATTE PROOF FINISH!!!* Breen states (Encyclopedia U.S. Proof Coins) "So rare in proof as to be controversial." This specimen is sharper struck than most we have seen although it is not as sharp struck as the later proofs. An opinion has been advanced that this is an early impression from the regular dies to which the MATTE PROOF FINISH was applied for some "Presentation Purpose." An intriguing and highly desirable specimen. The original envelope of S.M. Koeppel of Los Angeles (about 1939) has "U.S. \$10 1907 Sandblast Proof 30.00." The remarkable state of preservation alone establishes it as being worth a minimum of \$8,500; the MATTE PROOF FINISH certainly greatly enhances its value; surely over double its value as a regular strike.

# "10"

*Now, Kagin's offers collectors a "10"!*

## **10% Commission\***

The lowest rates in our history! We invite comparison.

Over the past two years, we have expanded our operations to include in-house typesetting, photography, and graphic arts production. This has greatly increased our efficiency in producing auction catalogs. This efficiency means savings to us, which we are passing on to our consignors.

To help cover the cost of presenting public auctions, we are also instituting a slight 5% buyers charge. After extensive analysis of European and non-numismatic U.S. auctions, we have noticed that a 5% buyers rate has little or no effect on bidding.

The result of these new rates will be MORE NET PROFIT to our consignors.

\*10% commission on items over \$1,000 in value. 15% for items up to \$1,000.
